Name of Client 受測者	: TEST	Report No. 報告編號	: AB200420002
Date of Birth 出生日期	: 08-Aug-1988	Specimen 樣本類別	: Blood
Ethnic Origin 種族	: 中國	Collection Date 採樣日期	: 20-Apr-2020
I.D./ Passport No. 證件編號	: 2	Received Date 交收日期	: 20-Apr-2020
Gestation Week 妊娠週數	: 6週	Reporting Date 報告日期	: 28-Apr-2020

Maternal blood paternity preliminary test report 母血篩選報告

The following Non-invasive Material Y Chromosomal test screens a maternal blood sample for Y chromosomal markers in fetal DNA using the follow methodology:

本公司非侵入性產前染色體篩檢，是利用母體血液樣本篩檢胎兒基因中含有的 Y 染色體標記，而方法如下：

- (1) Extraction of cell fetal DNA from the maternal blood sample
(1) 提取母體血液樣本中的遊離核酸細胞
- (2) Running qPCR to examine the presence or Y chromosomal markers
(2) 使用 qPCR 檢測 Y 染色體標記是否存在

The test confers an accuracy of > 99.9% on the detection of sex chromosome in maternal blood
此基因檢測的準確性為 >99.99%

Results 結果：

Y - Specific Genetic Marker Y 染色體DNA標記			
M1	Negative	M14	Negative
M2	Negative	M15	Negative
M3	Negative	M16	Negative
M4	Negative	M17	Negative
M5	Negative	M18	Negative
M6	Negative	M19	Negative
M7	Negative	M20	Negative
M8	Negative	M21	Negative
M9	Negative	M22	Negative
M10	Negative	M23	Negative
M11	Negative	M24	Negative
M12	Negative	M25	Negative
M13	Negative	M26	Negative

***Remark備註: Positive = 陽性 Negative = 陰性

Conclusion 結論:

Y Chromosome specific region Not Detected

Y 染色體篩檢呈 陰性

Remark 備註：

The accuracy of the test will be affected by miscarriage or childbirth within six months.
測試的準確性會受到半年內之流產或分娩所影響。
